DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 10-15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 10 recites in part (c) "...selecting under control of a processor operating on the gaming machine one of the plurality of peripheral spaces corresponding to the respective column on the respective B-I-N-G-O card or cards, determining whether the selected one of the plurality of peripheral spaces corresponds to a next sequential column on the respective B-I-N-G-O card or cards, and playing the respective B-I-N-G-O card or cards if the space corresponds" and then in (d) it states "lighting the column associated with the selected peripheral space only if the selected peripheral space corresponds to the next sequential column on the respective B-I-N-G-O card or cards". Both of these steps mention "the next sequential column". However, the claim never mentions a first column, so it is confusing how there can be a "next" column without ever having a first column. For example, it is unclear how the B column will ever be lit up since it has to be the first column lit up sequentially and can never be a "next" column". The Examiner suggests adding some claim

Art Unit: 3713

language to state that there is a first column that must be lit prior to determining if a selection is "the next sequential column".

Allowable Subject Matter

Claims 10-15 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Response to Amendment

It has been noted that claim 10 has been amended.

Response to Arguments

Applicant's arguments, filed August 17, 2005, with respect to the claims have been fully considered and are persuasive. The previous rejection of the claims has been withdrawn.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply

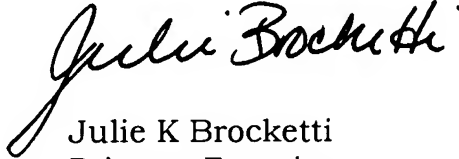

Art Unit: 3713

is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
